Quoting Made Simple

Lantek iQuoting allows non-technical sales staff to upload a part file to our web interface, indicate material, quantity, and ship date and our software generates incredibly accurate quotes in seconds. You can also receive orders directly from customers using our eCommerce Module, MetalShop.

Key Features & Benefits

- **Friendly Design** - Easy and simple to use and train.
- **Upload Your File** - Upload any .DXF file and indicate quantity, material, and delivery date for a highly accurate, instantaneous quote.
- **Anywhere, Anytime** - Our cloud-based application allows secure quoting from any connected device.
- **Faster Quotes, More Sales** - Our optional eCommerce module, MetalShop, provides your customers a platform to receive and accept quotes according to their custom price profile.

Industry Expertise

Over 30 years ago Lantek set out to make programming sheet metal cutting, punching, and shearing machines easier. Today, we provide advanced manufacturing systems to automate and streamline sheet metal, tube, pipe, and structural steel manufacturing.

Lantek has 20 offices for localized support to over 96,000 users worldwide. We program over 1,200 metal cutting and punching machines through our extensive OEM/MTB network.
